

2004 TRAFFIC FLOWS for Rural Bernalillo Co., N.M.

Prepared by the Mid-Region Council of Governments in cooperation with the local governments in State Planning and Development District 3, and funded in part by the New Mexico Department of Transportation (NMDOT) in cooperation with the U.S. Department of Transportation, Federal Highway Administration.

Standard Data 9500 Link Volume is based on traffic count data accepted by the NMDOT Traffic Monitoring System (TMS) as standard in accordance with the New Mexico State Traffic Monitoring Standards (NMSTMS).

Non Standard Data 9500 Link Volume is based either on traffic count data not in compliance with the NMSTMS or on professional judgement. NMDOT recommends that nonstandard data be used with caution.

Note: Traffic volume data used in the preparation of this map were collected by the Mid-Region Council of Governments and the NMDOT.

Data represent average weekday traffic volumes for both directions of travel combined. No traffic flow data is available on I-40 west of the NM 14 interchange due to a loss of traffic data collection facilities as a result of reconstruction of the interchange of I-25 and I-40.
